

ABSTRACT OF THE DISCLOSURE

In a foldable portable terminal unit containing a picture taking camera capable of transmitting an image and voice, monitoring through a display device is enabled in case of taking picture of himself or herself with that picture taking camera as well as taking picture of an outside object. A lid portion (3) is made foldable with respect to a case main body (2) of the portable terminal unit and rotatable with respect to the case main body (2). A display device (6) provided in the lid portion (3) is rotated with respect to the picture taking camera (11) fixed on rear face or a side face of the case main body (2) corresponding to the state of taking a picture so as to enable monitoring.
